

# Extension Education (ESTE)

---

## Requirements for a Microcertificate in Extension Education

Students will complete 9 hours of coursework to earn a Microcertificate in Extension Education. The courses may be taken in any order and in any semester of the student's graduate degree program. The microcertificate may also be earned by non-degree-seeking students, who may also take the courses in any order.

Required Courses (one three-credit-hour core course is required)

AGED 50503	Philosophy of Agricultural and Extension Education (offered Spring and online in various semesters via Agldea)	3
------------	--	---

Practicum/Internship (one three-credit-hour practicum/internship with Cooperative Extension is required):

EXED 5750V	Internship in Extension (offered Fall, Spring, and Summer)	3
------------	--	---

A three-credit-hour practicum/internship should involve approximately 120-130 hours of work with the partner. The practicum/internship need not be completed in a single semester, although that is acceptable. At the end of the final semester of the practicum/internship, students must present a written and oral report of the work performed and lessons learned.

Elective Courses (select one three-credit-hour course from the list below) 3

ACOM 51403 Electronic Communications in Agriculture (offered Spring Even Years)

ACOM 52403 Graphic Design in AFLS (offered Fall, Spring, and Summer)
