

Biological Engineering B.S.B.E. with Environmental Concentration

Biological Engineering B.S. with Environmental Concentration Eight-Semester Degree Program

The Bachelor of Science in Biological Engineering with Environmental Concentration program is eligible for students who want to participate in an Eight Semester Degree Program. See the Eight-Semester Degree Policy for more details. The plan below lists a semester-by-semester sequence of courses to finish the degree in eight semesters. State minimum core courses for engineering are listed at the bottom of this page. Students may submit a maximum of 4 hours of "D" in BENG courses for their degree.

Some courses are not offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course pre-requisites.
